

ANMOL GUPTA

Phone: (647) 636-5383 | Email: Anmol.gupta2180@gmail.com | Burlington, ON, LinkedIn: [/AnmolGupta](#)
Portfolio: [Anmolgupta.ca](#) | GitHub: [/AnmolGupta](#)

Creative and detail-oriented Front-End Developer with 4+ years of experience building responsive, production-grade web applications. Specializing in **React.js** and **Next.js**, **Redux**, with a strong eye for design and user experience. Skilled in **translating Figma designs into elegant, pixel-perfect UIs** and implementing **responsive layouts using Tailwind CSS**. Passionate about frontend architecture, data visualization, and building seamless interactions that bring designs to life. Experienced in integrating **RESTful APIs**, optimizing performance, and collaborating with cross-functional teams in Agile environments.

TECHNICAL SKILLS

Frontend Technologies

React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, Bootstrap, Responsive Design, Cross-Browser Compatibility

State Management & Architecture

Redux, Context API, Component-Based Architecture, Reusable Components, React Hooks

Backend & APIs

Node.js, Express.js, RESTful APIs, GraphQL, JWT Authentication

Databases

MongoDB, MySQL, Sequelize, Mongoose

Testing & Quality

Jest, React Testing Library, Unit Testing, Component Testing

CMS, Tools & Platforms

WordPress, Shopify, Git, GitHub, VS Code, Figma, Adobe XD, Postman, Vercel

Methodologies

Agile, Scrum, Mobile-First Development

EXPERIENCE

Front End Developer | Vosyn, ON, Canada

Jul 2024-Present

- Developed and maintained frontend components using **React**, **Next.js**, and **TypeScript**, improving type safety and long-term maintainability.
- Led frontend development across the application lifecycle, focusing on building intuitive, high-impact user interfaces that **increased user engagement by 30%**.
- Managed **global application state** using **Redux** and **Context API**, eliminating prop drilling and improving code maintainability.
- Built high-performance **Next.js applications leveraging SSR and SSG**, improving page load speed by **20%** and enhancing SEO.
- Developed **10+ reusable, modular UI components** following component-based architecture, improving development efficiency by **25%**.
- Ensured **mobile-first responsive design and cross-browser compatibility** across Chrome, Firefox, Safari, and Edge, achieving **90% UI consistency**.
- Implemented **unit testing** using Jest, ensuring code reliability and catching bugs early, which enhanced overall code quality.
- Provided post-deployment support and bug fixes for internal stakeholders, ensuring smooth feature rollouts.
- Supported **CI/CD pipelines** using GitHub Actions for automated build and deployment workflows.
- Ensured accessibility best practices (WCAG, semantic HTML, ARIA) across web experiences.
- Participated in Agile/Scrum ceremonies and conducted peer code reviews to maintain high engineering standards.

- Designed and developed **responsive, user-focused web applications and landing pages** using React.js, JavaScript (ES6+), HTML5, and CSS3.
- Built **SEO-optimized lead-generation pages**, contributing to a **40% increase in global client reach**.
- Developed a complete website from scratch using a **mobile-first approach**, resulting in a **35% increase in traffic** and a **25% improvement in user engagement**.
- Utilized the **Context API** for state management, **reducing prop drilling by 90%** and simplifying state management across the application.
- Implemented UI changes informed by user behavior and performance metrics, contributing to improved activation and engagement.
- Optimized frontend performance using **lazy loading and code splitting**, reducing initial page load time by **30%**.
- Developed **reusable React components**, improving development efficiency by **30%** and reducing code redundancy by **40%**.
- Integrated **RESTful APIs** using **Node.js and Express.js** to enable seamless frontend-backend communication.
- Supported live production environments with continuous updates and bug fixes impacting active users.
- Used data insights and user feedback to guide UX decisions and prioritize frontend improvements.
- Designed **wireframes** using **Figma**, accelerating the design process and **improving project delivery timelines by 20%**.

PROJECTS

Airbnb Home Rep | [GitHub](#) | [Deployed Project](#)

- **Role:** Front End Developer
- **Tools:** React, Context API, HTML, CSS, JS
 - Created a web page that mirrors the Airbnb homepage.
 - Utilized **Context API** to manage states effectively and simplify state management.
 - Designed and implemented **reusable components** to enhance code efficiency and eliminate redundancy in development.
 - Implemented a **filtering** functionality for house listings through conditional rendering.
 - Integrated Core **UI** for the carousel and customized the design and functionality to meet specific **requirements**.
 - Used Git for version control, ensuring regular code pushes to **GitHub**.

Akicks | [GitHub](#)

- **Summary:** E-commerce platform tailored for sneaker enthusiasts where users can explore a diverse range of sneakers categorized by brand, name, and value. The platform enables users to place orders for their preferred sneakers in their specific sizes by creating an account, adding selected items to the cart, and inputting necessary information during the checkout phase.
- **Role:** Full Stack Developer
- **Tools:** React, Context API, My SQL(sequelize), Express, Node.js, HTML, CSS, JS
 - Leveraged Context API for state management capabilities to ensure real-time updates and a dynamic user interface.
 - Designed and integrated a secure user authentication system using **JWT**.
 - Created advanced search and filtering options using the default filter functions.
 - Spearheaded backend development using **MySQL and Express**, establishing clear data models and **RESTful APIs**.
 - Used Git for version control, ensuring a systematic approach to code management.

EDUCATION

- **Full Stack Web Development Boot Camp** – University of Toronto (2023) Toronto, ON
- **Bachelor of Commerce** – Panjab University (2019) Punjab, India
